

Shaoying HUANG received the B.Eng., M. Eng., and Ph.D. degree from Nanyang Technological University, Singapore in 2003, 2006, and 2011, respectively. She joined the University of Hong Kong in 2010 working on computational electromagnetics (EM), and Massachusetts Institute of Technology in 2012 working on magnetic resonance imaging (MRI) related EM problems, both as a postdoctoral fellow. She has joined Singapore University of Technology and Design (SUTD) as an assistant professor in the pillar of Engineering Product Development since 2014. She is an adjunct assistant professor in the department of surgery in National University of Singapore, Singapore. Her main research interests include low-field MRI, non-linear MRI image reconstructions, and RF aspects of MRI. Moreover, she is also interested in wireless power transfer, wideband RF/microwave components, radiofrequency (RF)/microwave noninvasive/contactless sensing.
